About Pfuko

Pfuko Resources is a company that was founded in 2012 to pursue opportunities in the energy and resource sector, this vision was later revised in early 2015; it became apparent that the company's mandate and focus was not only vested in energy and minerals but mainly in providing investment opportunities to the investor, included such activities that give rise to the invested capital which also benefit the economy and the country, such services includes i.e. **supply and maintenance of Air Compressors, motors, pump, generators, specialized electrical cables, among other services.**

Our role in the industry has enhanced from being management consultants with integration, of hard skills in **mechanical engineering and HVAC.**

Our Vision

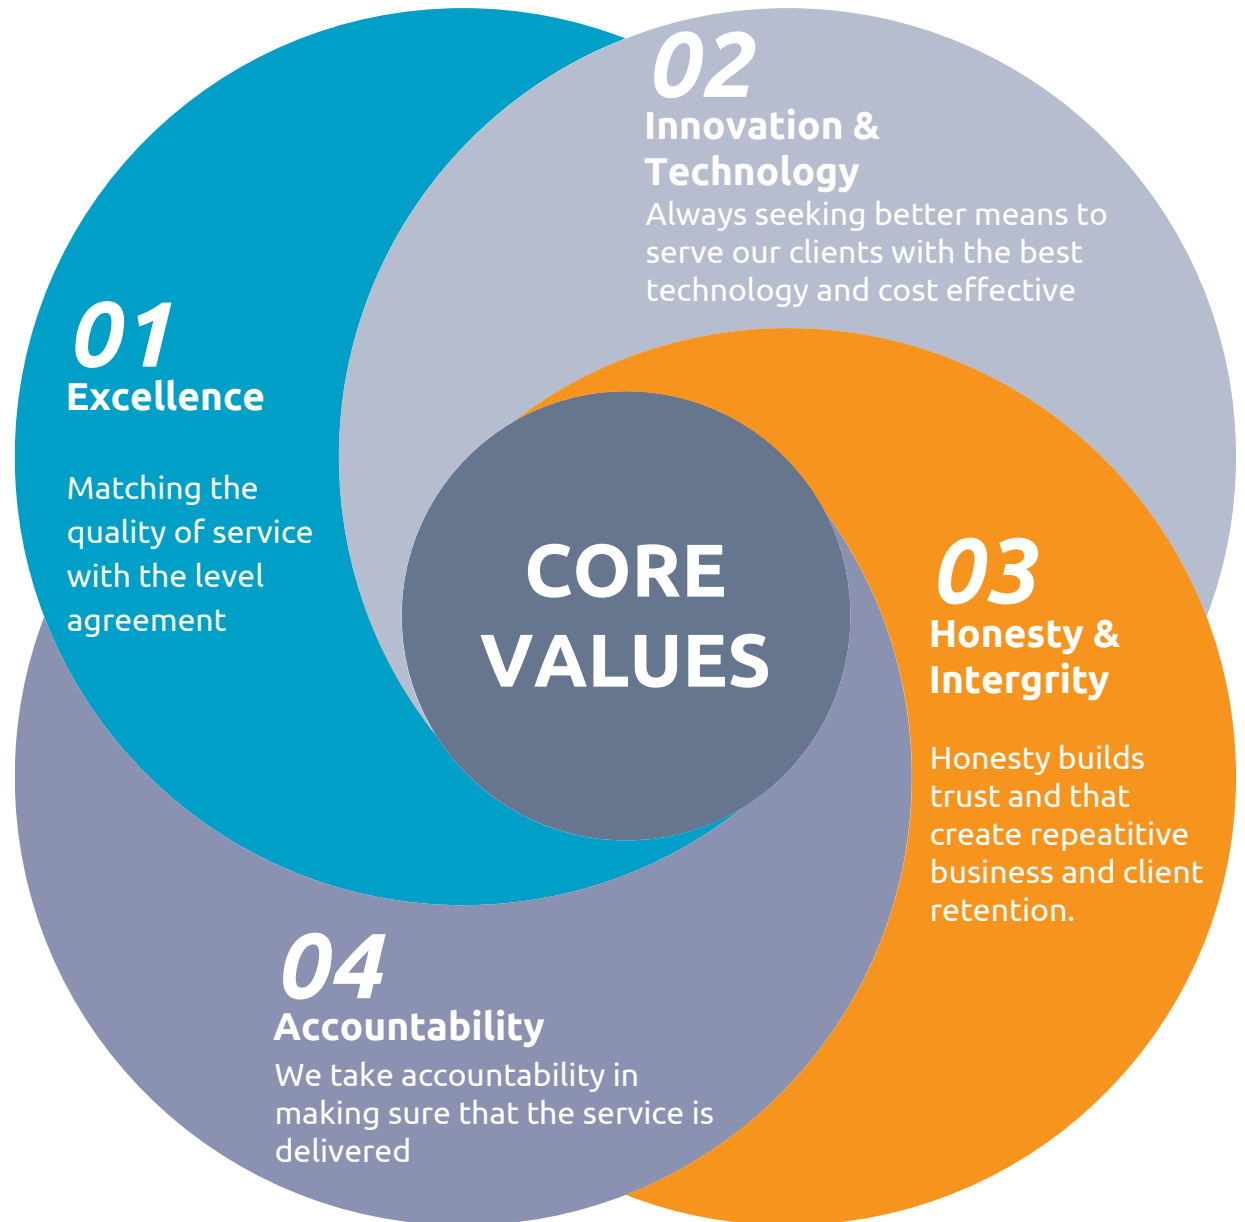

What inspires our team

To drive innovative and sustainable solutions adding value to South Africa and Africa's natural assets for the benefit of its people and the world.

Our Mission

What drives our team

To accomplish our vision Pfuko Group would seek to create and establish long-term mutually beneficial relationships and form partnership with brands across the country and the world

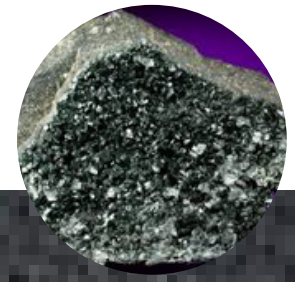

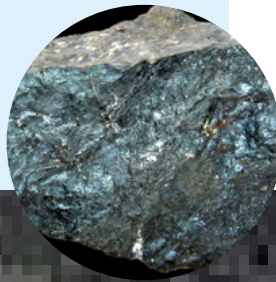

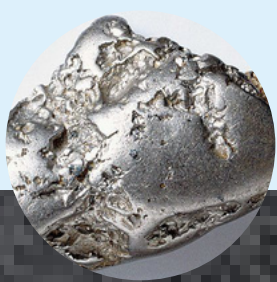

AFRICA - FOR - AFRICA, MINERAL STRATEGY

Mining plays a very important role in the South African economy. In the recent past South Africa's development strategy has evolved into two broad areas:

- Increasing investment in the mining sector through creating a favorable regulatory environment
- Increasing value-adding in the wide spectrum of the country's mineral industry

(Resource based industrial development strategy)

Pfuko has been in Stakeholder Management and community facilitation in Lephalale since 2018 amongst other communities, we understand the plight of the communities and the interest of business.

DIVERSITY & INCLUSION

Africa and South Africa are rich in mineral resources and possesses:

- **89% of the World's Chrome**
- **85% of the World's Platinum Group Metals**
- **70% of the World's Tantalite**
- **68% of the World's Cobalt**
- **54% of the World's Gold**
- **47% of the World's Coal**

Pfuko Resources
